

PTPRD Rabbit pAb

Catalog No.: A15713 **1 Publications**

Basic Information

Observed MW

300kDa

Calculated MW

215kDa

Category

Primary antibody

Applications

ELISA,WB

Cross-Reactivity

Human, Mouse, Rat

Background

The protein encoded by this gene is a member of the protein tyrosine phosphatase (PTP) family. PTPs are known to be signaling molecules that regulate a variety of cellular processes including cell growth, differentiation, mitotic cycle, and oncogenic transformation. This PTP contains an extracellular region, a single transmembrane segment and two tandem intracytoplasmic catalytic domains, and thus represents a receptor-type PTP. The extracellular region of this protein is composed of three Ig-like and eight fibronectin type III-like domains. Studies of the similar genes in chicken and fly suggest the role of this PTP is in promoting neurite growth, and regulating neurons axon guidance. Multiple alternatively spliced transcript variants of this gene have been reported. A related pseudogene has been identified on chromosome 5.

Recommended Dilutions

WB 1:500 - 1:2000

Immunogen Information

Gene ID

5789

Swiss Prot

P23468

Immunogen

Recombinant fusion protein containing a sequence corresponding to amino acids 1100-1265 of human PTPRD (NP_002830.1).

Synonyms

HPTP; PTPD; HPTPD; HPTPDELTA; RPTPDELTA; R-PTP-delta; PTPRD

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH 7.3.

Validation Data

Western blot analysis of various lysates using PTPRD Rabbit pAb (A15713) at 1:1000 dilution.
Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.
Lysates/proteins: 25µg per lane.
Blocking buffer: 3% nonfat dry milk in TBST.
Detection: ECL Basic Kit (RM00020).
Exposure time: 3min.
