

ZFYVE9 Rabbit pAb

Catalog No.: A16465

1 Publications

Basic Information

Observed MW

Calculated MW

156kDa

Category

Primary antibody

Applications

ELISA

Cross-Reactivity

Human

Background

This gene encodes a double zinc finger motif-containing protein that participates in the transforming growth factor-beta (TGFB) signalling pathway. The encoded protein interacts directly with SMAD2 and SMAD3, and recruits SMAD2 to the TGFB receptor. There are multiple pseudogenes for this gene on chromosomes 2, 15, and X. Alternative splicing results in multiple transcript variants.

Recommended Dilutions

ELISA

Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID

9372

Swiss Prot

O95405

Immunogen

Recombinant protein (or fragment). This information is considered to be commercially sensitive.

Synonyms

NSP; SARA; MADHIP; SMADIP; PPP1R173; ZFYVE9

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.
