Leader in Biomolecular Solutions for Life Science

# eIF4E Rabbit mAb

Catalog No.: A19044 Recombinant 1 Publications

Background

## **Basic Information**

**Observed MW** 25kDa

**Calculated MW** 25kDa

Category Primary antibody

Applications ELISA,WB,IP

**Cross-Reactivity** Mouse, Rat

**CloneNo number** ARC0447

factor 4F complex, which recognizes the 7-methylguanosine cap structure at the 5' end of messenger RNAs. The encoded protein aids in translation initiation by recruiting ribosomes to the 5'-cap structure. Association of this protein with the 4F complex is the rate-limiting step in translation initiation. This gene acts as a proto-oncogene, and its expression and activation is associated with transformation and tumorigenesis. Several pseudogenes of this gene are found on other chromosomes. Alternative splicing results in multiple transcript variants.

The protein encoded by this gene is a component of the eukaryotic translation initiation

# **Recommended Dilutions**

WB	1:500 - 1:1000
IP	0.5µg-4µg antibody for 400µg-600µg extracts of whole cells

# **Immunogen Information**

Gene ID 1977

**Swiss Prot** P06730

#### Immunogen

A synthetic peptide corresponding to a sequence within amino acids 118-217 of human elF4E (P06730).

Synonyms

CBP; EIF4F; AUTS19; EIF4E1; eIF-4E; EIF4EL1; eIF4E

# Contact

# **Product Information**

Source Rabbit

Isotype lgG

Purification Affinity purification

### Storage

Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 0.05% BSA, 50% glycerol, pH7.3.
