human IgG (Fc) Mouse mAb

Catalog No.: A21215 **1 Publications**

Basic Information

Observed MW
Refer to figures

Calculated MW
52kDa

Category
Primary antibody

Applications
ELISA,IHC-P

Cross-Reactivity
Human

CloneNo number
AMC0420

Background

Predicted to enable antigen binding activity and immunoglobulin receptor binding activity. Predicted to be involved in several processes, including activation of immune response; defense response to other organism; and phagocytosis. Predicted to act upstream of or within several processes, including immunoglobulin mediated immune response; positive regulation of hypersensitivity; and positive regulation of phagocytosis. Located in extracellular space.

Recommended Dilutions

IHC-P	1:50 - 1:200

Immunogen Information

Gene ID
3500

Swiss Prot
P01857,P01859,P01860,P01861

Immunogen
A synthesized peptide derived from human human IgG (Fc).

Synonyms
COB1; YAP; YAP2; YAP65; YKI; YAP1; human IgG (Fc)

Product Information

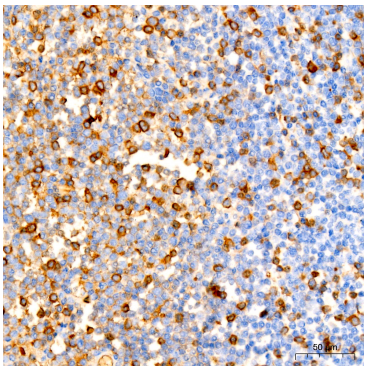
Source
Mouse

Isotype
IgG1,Kappa

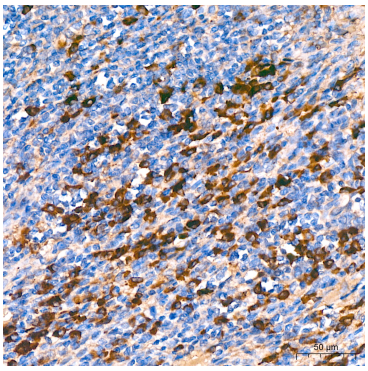
Purification
Affinity purification

Storage
Store at -20℃. Avoid freeze / thaw cycles.
Buffer: PBS with 0.05% proclin300,50% glycerol,pH7.3.

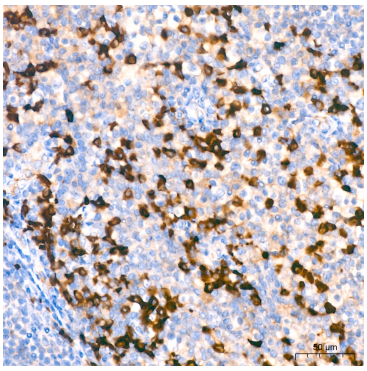
Validation Data



Immunohistochemistry analysis of paraffin-embedded Human Follicular lymphoma using human IgG (Fc) Mouse mAb (A21215) at dilution of 1:200 (40x lens). High pressure antigen retrieval performed with 0.01M Tris/EDTA Buffer (pH 9.0) prior to IHC staining.



Immunohistochemistry analysis of paraffin-embedded Human mantle cell lymphoma using human IgG (Fc) Mouse mAb (A21215) at dilution of 1:200 (40x lens). High pressure antigen retrieval performed with 0.01M Tris/EDTA Buffer (pH 9.0) prior to IHC staining.



Immunohistochemistry analysis of paraffin-embedded Human tonsil using human IgG (Fc) Mouse mAb (A21215) at dilution of 1:200 (40x lens). High pressure antigen retrieval performed with 0.01M Tris/EDTA Buffer (pH 9.0) prior to IHC staining.
