# FITC Mouse IgG2b isotype control

**Catalog No.: A22883**

## Basic Information

**Observed MW**
Refer to figures

**Calculated MW**

**Category**
Primary antibody

**Applications**
FC

**Cross-Reactivity**

**CloneNo number**
AMC0555

**Conjugate**
FITC. Ex:491nm. Em:516nm.

## Background

## Recommended Dilutions

| | |
|---|---|
| **FC** | 10 µL/Test |

## Immunogen Information

**Gene ID**

**Swiss Prot**

**Immunogen**
Recombinant protein (or fragment).This information is considered to be commercially sensitive.

**Synonyms**

## Contact

400-999-6126

cn.market@abclonal.com.cn

www.abclonal.com.cn

## Product Information

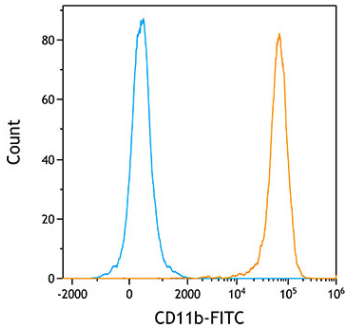
**Source**
Mouse

**Isotype**
Mouse IgG2b

**Purification**
Affinity purification

**Storage**
Store at -20℃

## Validation Data



Flow cytometry:1X10^6 Human PBMC were surface-stained with FITC Mouse anti-Human CD11b mAb (A22808, orange line) or FITC Mouse IgG2b isotype control mAb (A22883, blue line).
