APC Rabbit anti-Mouse IgG1 mAb

Catalog No.: A25698

Basic Information

Observed MW

Calculated MW 36kDa

Category

Primary antibody

Applications

FC

Cross-Reactivity

Mouse

CloneNo number

ARC63967

Conjugate

APC. Ex:650nm. Em:660nm.

Background

Mouse IgG1 is a subtype of immunoglobulin G antibody that is produced by B cells in response to an antigen. It is the most abundant IgG subtype in the serum and plays a crucial role in the adaptive immune response. Mouse IgG1 is composed of two heavy chains and two light chains, and it is involved in opsonization, complement activation, and antibody-dependent cell-mediated cytotoxicity. It is also involved in the regulation of immune responses, including the activation of T cells and the inhibition of B cell activation. Mouse IgG1 is widely used in research and diagnostic applications, including ELISA, Western blotting, and immunohistochemistry. It is also used in therapeutic applications, such as immunotherapy and vaccine development.

Recommended Dilutions

FC

5 μl per 10^6 cells in 100 μl volume

Immunogen Information

Gene ID

Swiss Prot P01868

Immunogen

Recombinant protein (or fragment). This information is considered to be commercially sensitive.

Synonyms

lgG1

Product Information

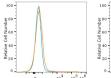

| Source | Isotype | Purification |
|--------|---------|-----------------------|
| Rabbit | IgG | Affinity purification |

Storage

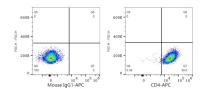

Store at 2-8°C. Avoid freeze.

Buffer: PBS containing 0.2% BSA, preserved with proclin300 or sodium azide (as specified on the Certificate of Analysis), pH 7.3.

Validation Data

Flow cytometry: 1X10^6 PC-3 cells (negative control,left) and THP-1 cells (right) were surface-stained with Mouse anti-Human CD4 mAb (lgG1, κ ,orange line) or Mouse lgG1 isotype control (2 μ g/mL,blue line), followed by APC Rabbit anti-Mouse lgG1 mAb (A25698,5 μ l/Test) staining. Nonfluorescently stained cells were used as blank control (red line).

Flow cytometry: $1X10^6$ THP-1 cells were surface-stained with Mouse IgG1 isotype control (2 μ g/mL,left) or Mouse anti-Human CD4 mAb (IgG1, κ ,right). APC Rabbit anti-Mouse IgG1 mAb (A25698,5 μ l/Test) was used as a secondary antibody.
