

Phospho-alt-RPL36-S142 Rabbit pAb

Catalog No.: AP1212

Basic Information

Observed MW

Refer to figures

Calculated MW

Category

Primary antibody

Applications

WB,DB,ELISA

Cross-Reactivity

Human

Background

Alt-RPL36 is a protein co-encoded with human RPL36. Alt-RPL36 partially localizes to the endoplasmic reticulum, where it interacts with TMEM24, which transports the phosphatidylinositol 4,5-bisphosphate (PI(4,5)P₂) precursor phosphatidylinositol from the endoplasmic reticulum to the plasma membrane. Alt-RPL36 contains four phosphoserine residues, point mutations of which abolish interaction with TMEM24 and, consequently, alt-RPL36 effects on PI3K signaling and cell size.

Recommended Dilutions

WB 1:500 - 1:2000

DB 1:500 - 1:1000

ELISA Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID

Swiss Prot

Immunogen

Synthetic peptide. This information is considered to be commercially sensitive.

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH7.3.

Validation Data

Dot-blot analysis of all sorts of peptides using Phospho-alt-RPL36-S142 antibody (AP1212) at 1:1000 dilution. Exposure time: 1s.

Dot-blot analysis of all sorts of peptides using Phospho-alt-RPL36-S142 antibody (AP1212) at 1:1000 dilution. Exposure time: 30s.
