

Rabbit anti-Universal Nuclease mAb(CAP)

Catalog No.: RM18035

Basic Information

Catalog No.
RM18035

Catagory
Elisa Antibody Kit

Application
ELISA

Product Information

Ig Type
Rabbit IgG

Purification
Affinity purification

Endotoxin Level

Storage
This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.

Avoid repeated freeze-thaw cycles.

Formulation
Supplied as a 0.2µm filtered solution in PBS with 0.1% BSA, 0.1% Ph7.4 containing Human NEFL Antibody.

Background

Nuclease, also known as unrestricted endonuclease and broad-spectrum nuclease, is a non-specific endonuclease derived from *Serratia Marcescens*, which can completely digest RNA and DNA (doublestranded, single-stranded, linear, circular) and is widely used to remove nucleic acids in biological products. Therefore, there may be trace residue of omnipotent nuclease in biological products, which will have certain influence on biological products.

Immunogen Information

Immunogen
Recombinant Universal Nuclease

Cross-Reactivity

/

Assay Applications

Universal Nuclease Sanwich ELISA Immunoassay

	Recommended Concentration	Sample
ELISA Capture	1-4µg/mL	Rabbit anti-Universal Nuclease mAb(CAP)(Cat. No.RM18035)
ELISA Detection	0.05-0.0125µg/mL	Rabbit anti-Universal Nuclease mAb(DET)(Cat. No.RM18036)
Standard	39.06-2500pg/mL	Recombinant Universal Nuclease

Validation Data

This standard curve is only for demonstration purposes. A standard curve should be generated for each assay.

Placed at 37°C for 3 days, the stability of the standard curve all conform to CV <10%.
