Rabbit anti-Human EPCR/CD201 mAb

Catalog No.: RMK0395

Basic Information

Catalog No.
RMK0395

Catagory
Elisa Antibody Kit

Application
Multiplex

Product Information

Ig Type
Rabbit IgG

Purification
Affinity purification

Endotoxin Level

Storage
Store at -20℃
Avoid repeated freeze-thaw cycles.

Formulation
Supplied as a 0.2 μm filtered solution in PBS with 0.05% Proclin 300, PH 7.4.

Background

The protein encoded by this gene is a receptor for activated protein C, a serine protease activated by and involved in the blood coagulation pathway. The encoded protein is an N-glycosylated type I membrane protein that enhances the activation of protein C. Mutations in this gene have been associated with venous thromboembolism and myocardial infarction, as well as with late fetal loss during pregnancy. The encoded protein may also play a role in malarial infection and has been associated with cancer.

Immunogen Information

Immunogen
Recombinant human EPCR/CD201 Protein

Cross-Reactivity

/

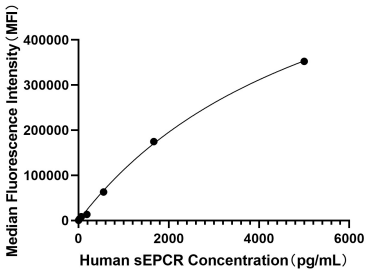

Assay Applications

Human EPCR/CD201 Sandwich Immunoassay

	Recommended Concentration	Sample
Multiplex Capture	3-20 μg/mL	Rabbit anti-Human EPCR/CD201 mAb (Cat. No. RMK0394)
Multiplex Detection	0.017-2 μg/mL	Rabbit anti-Human EPCR/CD201 mAb (Cat. No. RMK0395)
Standard	6.86-5000 pg/mL	Recombinant Human EPCR/CD201 Protein
