Rabbit anti-Human S100A7 mAb

Catalog No.: RMK0407

Basic Information

Catalog No.
RMK0407

Catagory
Elisa Antibody Kit

Application
Multiplex

Product Information

Ig Type
Rabbit IgG

Purification
Affinity purification

Endotoxin Level

Storage
Store at -20℃
Avoid repeated freeze-thaw cycles.

Formulation
Supplied as a 0.2μm filtered solution in PBS with 0.05% Proclin300, PH 7.4.

Background

The protein encoded by this gene is a member of the S100 family of proteins containing 2 EF-hand calcium-binding motifs. S100 proteins are localized in the cytoplasm and/or nucleus of a wide range of cells, and involved in the regulation of a number of cellular processes such as cell cycle progression and differentiation. S100 genes include at least 13 members which are located as a cluster on chromosome 1q21. This protein differs from the other S100 proteins of known structure in its lack of calcium binding ability in one EF-hand at the N-terminus. The protein is overexpressed in hyperproliferative skin diseases, exhibits antimicrobial activities against bacteria and induces immunomodulatory activities.

Immunogen Information

Immunogen
Recombinant Human S100A7 Protein

Cross-Reactivity

/

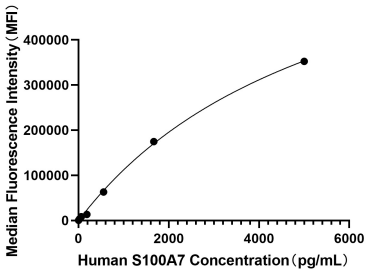

Assay Applications

Human S100A7 Sandwich Immunoassay

		Recommended Concentration	Sample
Multiplex	Capture	3-20ug/mL	Rabbit anti-Human S100A7 mAb(Cat. No.RMK0080)
	Detection	0.017-2ug/mL	Rabbit anti-Human S100A7 mAb(Cat. No.RMK0407)
	Standard	6.86-5000pg/mL	Recombinant Human S100A7 Protein
