

Recombinant Human Sulfotransferase 1A1/SULT1A1 Protein

Catalog No.: RP00037 **Recombinant**

Sequence Information

Species	Gene ID	Swiss Prot
Human	6817	P50225

Tags

C-His

Synonyms

SULT1A1;HAST1/HAST2;P-
PST;PST;ST1A1;ST1A3;STP;STP1;TSPST1

Product Information

Source	Purification
<i>E. coli</i>	> 95% by SDS- PAGE.

Endotoxin

< 0.01 EU/μg of the protein by LAL method.

Formulation

Lyophilized from a 0.22 μm filtered solution of 20mM Tris, 150mM NaCl, pH 8.0. Contact us for customized product form or formulation.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize freeze-thaw cycles.

Background

Sulfotransferase enzymes catalyze the sulfate conjugation of many hormones, neurotransmitters, drugs, and xenobiotic compounds. Particularly SULT1A1 (Sulfotransferase family, cytosolic, 1A, phenol-preferring, member 1), a member of the sulfotransferase 1 subfamily, which is a major pathway for drug metabolism in humans. Statistically significant associations were observed between the SULT1A1 genotype (Arg213His) and age, obesity and certain neoplasias (mammary, pulmonary, esophageal and urothelial cancer). Furthermore, the polymorphism of the SULT1A1 may be closely associated with breast cancer.

Basic Information

Description

Recombinant Human Sulfotransferase 1A1/SULT1A1 Protein is produced by *E. coli* expression system. The target protein is expressed with sequence (Met1-Leu295) of human SULT1A1 (Accession #NP_001046.2) fused with a 6xHis tag at the C-terminus.

Bio-Activity

Storage

Store the lyophilized protein at -20°C to -80 °C for long term. After reconstitution, the protein solution is stable at -20 °C for 3 months, at 2-8 °C for up to 1 week. Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human Sulfotransferase 1A1/SULT1A1 Protein was determined by SDS-PAGE with Coomassie Blue, showing a band at 32 kDa.
