

Recombinant Human IL-2RA/CD25 Protein

Catalog No.: RP00076 **Recombinant**

Sequence Information

Species	Gene ID	Swiss Prot
Human	3559	P01589

Tags

C-His

Synonyms

IL2RA; CD25; IDDM10; IL2R; IMD41;
TCGFR; p55; interleukin-2 receptor
subunit
alpha;CD25;IDDM10;IL2R;IMD41;TCGFR;
p55

Product Information

Source	Purification
HEK293 cells	≥ 95 % as determined by SDS- PAGE; ≥95 % as determined by HPLC.

Calculated MW	Observed MW
22.58 kDa	35-40 kDa

Endotoxin

< 0.1 EU/μg of the protein by LAL
method.

Formulation

Lyophilized from a 0.22 μm filtered
solution of PBS, pH 7.4. Contact us for
customized product form or formulation.

Reconstitution

Centrifuge the vial before opening.
Reconstitute to a concentration of
0.1-0.5 mg/mL in sterile distilled water.
Avoid vortex or vigorously pipetting the
protein. For long term storage, it is
recommended to add a carrier protein or
stabilizer (e.g. 0.1% BSA, 5% HSA, 10%
FBS or 5% Trehalose), and aliquot the
reconstituted protein solution to
minimize freeze-thaw cycles.

Background

The interleukin 2 (IL2) receptor alpha (IL2RA) and beta (IL2RB) chains, together with the common gamma chain (IL2RG), constitute the high-affinity IL2 receptor. Homodimeric alpha chains (IL2RA) result in low-affinity receptor, while homodimeric beta (IL2RB) chains produce a medium-affinity receptor. Normally an integral-membrane protein, soluble IL2RA has been isolated and determined to result from extracellular proteolysis. Alternately-spliced IL2RA mRNAs have been isolated, but the significance of each is presently unknown.

Basic Information

Description

Recombinant Human IL-2RA/CD25 Protein is produced by HEK293 expression system. The target protein is expressed with sequence (Glu22-Cys213) of human CD25/IL-2R alpha (Accession #NP_000408.1) fused with a 6xHis tag at the C-terminus.

Bio-Activity

Measured by its binding ability in a functional ELISA. Immobilized Recombinant human IL2R at 2 μg/mL (100 μL/well) can bind Recombinant human IL2 with a linear range of 5-30 ng/mL.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human IL-2RA/CD25 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.

The purity of Human CD25/IL-2R alpha Protein (Cat.RP00076) was greater than 95% as determined by SEC-HPLC.

Immobilized Recombinant human IL2R at 2 µg/mL (100 µL/well) can bind Recombinant human IL2 with a linear range of 5-30 ng/mL.
