

# Recombinant Human CD47 Protein

Catalog No.: RP00529

Recombinant

## Sequence Information

Species	Gene ID	Swiss Prot
Human	961	Q08722-1

### Tags

No Tag

### Synonyms

CD47 glycoprotein; CD47 molecule;  
CD47; IAP; OA3; MER6

## Product Information

Source	Purification
HEK293 cells	≥ 95 % as determined by SDS-PAGE; ≥ 95 % as determined by HPLC.

Calculated MW	Observed MW
13.72 kDa	35-48 kDa

### Endotoxin

< 1 EU/μg of the protein by LAL method.

### Formulation

Lyophilized from 0.22 μm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.

### Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

## Background

CD47 (Cluster of Differentiation 47) also known as integrin associated protein (IAP) is a transmembrane protein that in humans is encoded by the CD47 gene. CD47 belongs to the immunoglobulin superfamily and partners with membrane integrins and also binds the ligands thrombospondin-1 (TSP-1) and signal-regulatory protein alpha (SIRPα). CD-47 acts as a don't eat me signal to macrophages of the immune system which has made it a potential therapeutic target in some cancers.

## Basic Information

### Description

Recombinant Human CD47 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gln19-Pro139) of Human CD47 (Accession #Q08722-1) fused with No Tag.

### Bio-Activity

### Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human CD47 Protein was determined by Tris-Bis PAGE under reducing conditions.

The purity of Human CD47 is greater than 95% as determined by SEC-HPLC.

Immobilized Human CD47, No Tag at 5 µg/mL (100 µL/well) on the plate. Dose response curve for Human SIRP alpha, hFc Tag with the EC<sub>50</sub> of 0.24 µg/mL determined by ELISA.
