

# Recombinant Mouse Fc-gamma RIV/CD16-2 Protein

Catalog No.: RP01394 **Recombinant**

## Sequence Information

Species	Gene ID	Swiss Prot
Mouse	246256	A0A0B4J1G0

### Tags

C-His

### Synonyms

Fc gamma  
RIV;CD16-2;Fcgr4;FCGR4;mouse  
igg;Fcgr4

## Product Information

Source	Purification
HEK293 cells	> 95% by SDS-PAGE.

### Endotoxin

<0.1EU/μg

### Formulation

Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

### Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize freeze-thaw cycles.

## Background

FcgammaRIV is a relatively new IgG Fc receptor (FcgammaR) that is reported to contribute to the pathogenesis of autoimmune diseases. FcgammaRIII and FcgammaRIV are each essential to trigger an FcRgamma-linker for activation of T-cell-dependent signal that drives C5a production in the Arthus reaction. A combined requirement for FcgammaRIII and FcgammaRIV in autoimmune injury, and identify the linker for activation of T cells adaptor as an integral component of linked FcgammaR and C5a anaphylatoxin receptor activation to generate inflammation.

## Basic Information

### Description

Recombinant Mouse Fc-gamma RIV/CD16-2 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gly21-Gln 203) of mouse Fc gamma RIV/CD16-2 (Accession #NP\_653142.2) fused with a 6xHis tag at the C-terminus.

### Bio-Activity

### Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

## Validation Data

---

Recombinant Mouse Fc-gamma RIV/CD16-2 Protein was determined by SDS-PAGE with Coomassie Blue, showing a band at 32-38kDa.
