

Recombinant Human CDH3/P-cadherin Protein

Catalog No.: RP01491 **Recombinant**

Sequence Information

Species	Gene ID	Swiss Prot
Human	1001	P22223

Tags

C-His

Synonyms

CDH3;CDHP;HJMD;PCAD

Product Information

Source	Purification
HEK293 cells	> 85% by SDS-PAGE.

Endotoxin

<1EU/μg

Formulation

Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize freeze-thaw cycles.

Background

Cadherin-3 [also known as P-cadherin] is a classical cell-to-cell adhesion molecule with a homeostatic function in several normal tissues. They preferentially interact with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types. In humans, cadherin-3 is only detected in a few organs. However, its overexpression is strongly associated with a poor prognosis in some solid tumors including breast, lung and pancreatic cancers.

Basic Information

Description

Recombinant Human CDH3/P-cadherin Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Asp108-Gly654) of human CDH3/Cadherin-3 (Accession #NP_001784.2) fused with a 6×His tag at the C-terminus.

Bio-Activity

Measured by the ability of the immobilized protein to support the adhesion of A431 human epithelial carcinoma cells. When 1×10⁵ cells/well are added to rhP-CAD/Fc Chimera coated plates (10 μg/mL with 100 μL/well), approximately 50-60% will adhere after 1.5 hours at 37° C.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human CDH3/P-cadherin
Protein was determined by SDS-PAGE with
Coomassie Blue, showing a band at 80kDa.
