

Recombinant Human/Mouse FGF-8B Protein

Catalog No.: RP01659 **Recombinant**

Sequence Information

Species Human/Mouse
Gene ID 2253(B)
Swiss Prot P55075-3

Tags
 C-6His

Synonyms

HH6; AIGF; KAL6; FGF-8; HBGf-8; FGF8B

Product Information

Source HEK293 cells
Purification > 97% by SDS-PAGE.

Calculated MW 23.23 kDa
Observed MW 35-45kDa

Endotoxin
 <0.1EU/μg

Formulation

Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

In mammalian embryos, transient Fgf8 expression defines the developing isthmic region, lying between the midbrain and the first rhombomere, but there has been uncertainty about the existence of a distinct isthmic segment in postnatal mammals. Retinoic acid (RA) directly represses Fgf8 through a RARE-mediated mechanism that promotes repressive chromatin, thus providing valuable insight into the mechanism of RA-FGF antagonism during progenitor cell differentiation. Fgf8 encodes a key signaling factor, and its precise regulation is essential for embryo patterning.

Basic Information

Description

Recombinant Human/Mouse FGF-8B Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gln23-Arg215) of human FGF-8B (Accession #NP_006110.1) fused with and a 6xHis tag at the C-terminus.

Bio-Activity

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human FGF-8B Protein was determined by SDS-PAGE with Coomassie Blue, showing a band at 35-45 kDa.
