

# Recombinant Human Leukemia inhibitory factor receptor/LIF-R/CD118 Protein

Catalog No.: RP02434 **Recombinant**

## Sequence Information

Species	Gene ID	Swiss Prot
Human	3977	P42702-1

### Tags

C-hFc

### Synonyms

LIFR;CD118;LIF-R;SJS2;STWS;SWS

## Product Information

### Source

HEK293 cells

### Purification

> 95% by Tris-Bis PAGE;> 95% by SEC-HPLC

### Endotoxin

< 1 EU/μg of the protein by LAL method.

### Formulation

Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

### Reconstitution

Centrifuge the tube before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize freeze-thaw cycles.

## Background

### Basic Information

#### Description

Recombinant Human LIF R Protein is produced by Expi293 expression system. The target protein is expressed with sequence (Gln45-Ser833) of Human LIF R fused with hFc tag at the C-terminal.

#### Bio-Activity

#### Storage

Store the lyophilized protein at -20°C to -80°C for long term. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

## Validation Data

---

Human LIF R on Tris-Bis PAGE under reduced condition. The purity is greater than 95%.

The purity of Human LIF R is greater than 95% as determined by SEC-HPLC.
