

Recombinant Human Granzyme A Protein

Catalog No.: RP02990 **Recombinant**

Sequence Information

Species	Gene ID	Swiss Prot
Human	3001	P12544

Tags

C-His

Synonyms

GZMA; CTLA3; HFSP

Product Information

Source	Purification
HEK293 cells	>95% as determined by SDS-PAGE

Endotoxin

<0.1EU/μg

Formulation

Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

Basic Information

Description

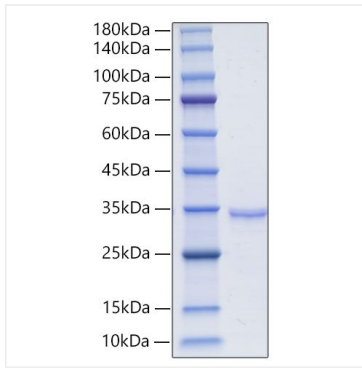

Recombinant Human Granzyme A Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Glu27-Val262) of human Granzyme A (Accession #NP_006135.1) fused with a His tag at the C-terminus.

Bio-Activity

Storage

Store the lyophilized protein at -20°C to -80°C for 12 months. After reconstitution, the protein solution is stable at -20°C to -80°C for 3 months, at 2-8°C for up to 1 week. Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human Granzyme A Protein was determined by SDS-PAGE with Coomassie Blue, showing a band at 20-35kDa.
