

Recombinant Mouse CXCL4/PF-4 Protein

Catalog No.: RP03170 **Recombinant**

Sequence Information

Species	Gene ID	Swiss Prot
Mouse	56744	Q9Z126

Tags

C-hFc

Synonyms

Pf4; Cxcl4; Scyb4; Platelet factor 4; PF-4;
C-X-C motif chemokine 4

Product Information

Source	Purification
HEK293 cells	≥ 90% as determined by SDS-PAGE; ≥ 90% as determined by HPLC.

Calculated MW	Observed MW
34.17 kDa	40-45 kDa

Endotoxin

< 0.01 EU/μg of the protein by LAL method

Formulation

Lyophilized from 0.22 μm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize freeze-thaw cycles.

Background

Platelet factor-4 is a 70-amino acid protein that is released from the alpha-granules of activated platelets and binds with high affinity to heparin. Its major physiologic role appears to be neutralization of heparin-like molecules on the endothelial surface of blood vessels, thereby inhibiting local antithrombin III activity and promoting coagulation. As a strong chemoattractant for neutrophils and fibroblasts, PF4 probably has a role in inflammation and wound repair.

Basic Information

Description

Recombinant Mouse CXCL4/PF-4 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Val30-Ser105) of Mouse CXCL4/PF-4 (Accession #NP_064316.1) fused with a hFc at the C-terminus.

Bio-Activity

Measured by its binding ability in a functional ELISA. Immobilized Human CCL5 (Catalog: RP01750LQ) at 5 μg/mL (100 μL/well) can bind Mouse CXCL4 (Catalog: RP03170) with a linear range of 10-252.6 ng/mL.

Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

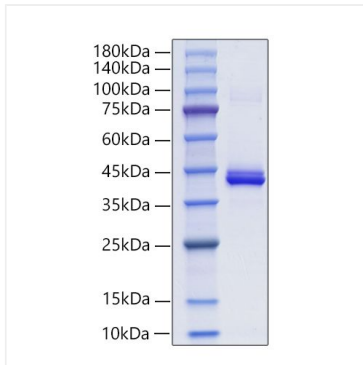

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

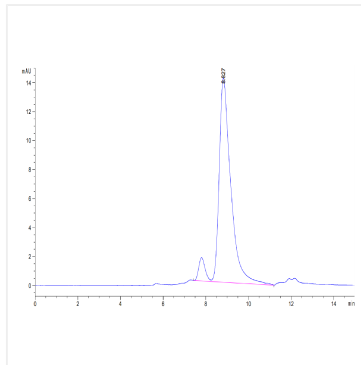

Operational Notes

For your safety and health, please wear a lab coat and disposable gloves for handling.

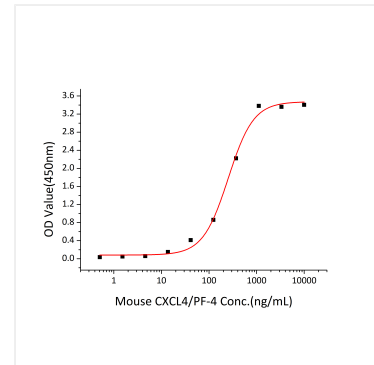

Validation Data

Recombinant Mouse CXCL4/PF-4 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.

The purity of Mouse CXCL4 is greater than 90% as determined by SEC-HPLC.

Immobilized Human CCL5 (Catalog: RP01750LQ) at 5 $\mu\text{g}/\text{mL}$ (100 $\mu\text{L}/\text{well}$) can bind Mouse CXCL4 (Catalog: RP03170) with a linear range of 10-252.6 ng/mL.
