

Catalog No.: RP03191 **Recombinant**

Species	Gene ID	Swiss Prot
Human	8370	NP_003539.1

No tag

histone cluster 2: H4a: Histone H4

Source	Purification
E.coli	≥ 95 % as determined by SDS-PAGE.

11.4 kDa 10-15 kDa

Please contact us for more information.

Lyophilized from sterile 2 mM β -ME in sterile distilled water, pH 6.0. Please contact us for any concerns or special requirements. Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.

Recombinant Human Histone H4 Protein is produced by E.coli expression system. The target protein is expressed with sequence (Met1-Gly103) of Human Histone H4 (Accession #NP_003539.1) fused with No tag.

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

Validation Data

Recombinant Human Histone H4 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
