

# Recombinant Human Ubiquitin carboxyl-terminal hydrolase 11/USP11 protein

Catalog No.: RP10203LQ **Recombinant**

## Sequence Information

Species	Gene ID	Swiss Prot
Human	8237	P51784?

### Tags

GST Tag

### Synonyms

UHX1;USP11

## Product Information

Source	Purification
sf9 insect cells	~85% by SDS-PAGE

### Endotoxin

### Formulation

20 mM Tris, 150 mM NaCl, 2 mM βME, 10% Glycerol

### Reconstitution

## Background

Deubiquitinating enzymes (DUBs) are proteases that possess the ability to cleave ubiquitin chains or the isopeptide bond that conjugates ubiquitin with a substrate. Human cells have approximately 100 DUBs that play important roles in regulating various cellular events. Usp11 belongs to the ubiquitin-specific protease family. It helps in repairing DNA damage. It has been found to interact with RanBPM, a RanGTP-binding protein.

## Basic Information

### Description

### Bio-Activity

### Storage

This product is stable at  $\leq -70^{\circ}\text{C}$  for up to 6 months from the date of receipt. For optimal storage, aliquot into smaller quantities after centrifugation and store at recommended temperature. Avoid repeated freeze/thaw cycles.

## Validation Data

---

Recombinant Human Ubiquitin carboxyl-terminal hydrolase 11/USP11 protein was determined by SDS-PAGE with Coomassie Blue.
