

Human IgG1, kappa Isotype Control

Catalog No.: RPT0031LQ

Sequence Information

Species	Gene ID	Swiss Prot
Human		

Tags

Synonyms

Human IgG1 kappa; IgG1 kappa; IgG1k

Product Information

Source	Purification
	> 95% by SDS-PAGE.

Endotoxin

< 1.0 EU/μg of the protein by LAL method.

Formulation

0.22 μm filtered solution in Histidine and Arginine buffer containing 120 mM NaCl, 0.02% Tween 80, pH 6.0. Contact us for customized product form or formulation.

Reconstitution

Background

Negative control for in vitro cell based assay -This IgG1/kappa isotype antibody can be used in any recombinant protein based or animal based cell assay as a antibody negative control. For example, this antibody can be used in an activated PBMC assay. |Negative control for in vivo animal model study - This IgG1/kappa isotype antibody can be used in any animal model as a antibody negative control.

Basic Information

Description

Bio-Activity

Storage

Store at -20°C. This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze/thaw cycles.
