# Human HER2 Monoclonal Antibody, Endotoxin 0.05 EU/mg

Catalog No.: YR0047

# **Basic Information**

Molecular Weight 150 kDa

Endotoxin <0.05EU/mg (<0.00005EU/µg) Determined by LAL gel clotting assay

**Sterility** 0.2 µm filtration

Aggregation <5% Determined by SECP

**Purity** >95% Determined by SDS-PAGE

## Background

Trastuzumab, a humanized monoclonal antibody, interferes with the HER2/neu receptor and is mainly used to treat certain breast cancers, especially HER2-positive metastatic breast cancer. Combined with chemotherapy, trastuzumab increases both survival and response rate. There are four closely related receptor tyrosine kinases in the ErbB family of receptors: EGFR (ErbB-1; HER1 in humans), HER2/c-neu (ErbB-2), Her 3 (ErbB-3) and Her 4 (ErbB-4). Bound by members of the epidermal growth factor family (EGF-family) of extracellular protein ligands, the HER receptors embedded in the cell membrane promote cell growth and division by turning genes on and off. The HER2 pathway stimulates cell proliferation if it normally functions; when HER2 is overexpressed, cell growth accelerates beyond its normal limits, which happens in some cancers, notably certain types of breast cancer.

## **Reported Applications**

ELISA, neutralization, functional assays such as bioanalytical P K and ADA assays, and those assays for studying biological pathways

## Immunogen Information

**Clone** Trastuzumab Biosimilar **Isotype** Human IgG1 kappa

#### Immunogen human HER2

.....

RecommendedIsotype Control(s) In Vivo Grade Recombinant Human IgG1 Kappa Isotype Control Antibody

**Recommended Dilution Buffer** 

1×PBS pH 6.0

## Contact

6	400-999-6126
$\times$	cn.market@abclonal.com.cn
€	www.abclonal.com.cn

## **Product Information**

**Production** Purified from cell culture supernatant in an animal-free facility **Purification** Protein A or G purification

#### Storage

Store at 2 - 8°C. 2 - 8°C for up to 4 weeks and -80°C for long term storage (Avoid repeated freezing and thawing)
