

# Human Trop-2 Monoclonal Antibody, Endotoxin 0.05 EU/mg

Catalog No.: YR0139

## **Basic Information**

#### **Molecular Weight**

150 kDa

#### **Endotoxin**

<0.05EU/mg (<0.00005EU/µg)
Determined by LAL gel clotting assay

## Sterility

0.2 µm filtration

### **Aggregation**

<5% Determined by SECP

### **Purity**

>95% Determined by SDS-PAGE

# **Background**

Sacituzumab govitecan is a Trop-2-directed antibody and topoisomerase inhibitor drug conjugate used for the treatment of metastatic triple-negative breast cancer and metastatic urothelial cancer. Triple-negative breast cancer is a type of breast cancer that tests negative for estrogen receptors, progesterone receptors and human epidermal growth factor receptor 2 (HER2) protein. Therefore, triple-negative breast cancer does not respond to hormonal therapy medicines or medicines that target HER2. Sacituzumab govitecan is a conjugate of the humanized anti-Trop-2 monoclonal antibody linked with SN-38, the active metabolite of irinotecan. Each antibody having on average 7.6 molecules of SN-38 attached. SN-38 is too toxic to administer directly to patients, but linkage to an antibody allows the drug to specifically target cells containing Trop-2.

# **Reported Applications**

ELISA,neutralization,functional assays such as bioanalytical P K and ADA assays,and those assays for studying biological pathways

# **Immunogen Information**

Clone

Isotype

Sacituzumab Biosimilar

Human IgG1 kappa

#### **Immunogen**

Human Trop-2

## RecommendedIsotype Control(s)

In Vivo Grade Recombinant Human IgG1 Kappa Isotype Control Antibody

## **Recommended Dilution Buffer**

1×PBS pH 7.3

## **Contact**

<u>a</u>		400-999-6126
$\bowtie$	Τ	cn.market@abclonal.com.cn
•	ī	www.abclonal.com.cn

## **Product Information**

Production

**Purification** 

Purified from cell culture supernatant in an animal-free facility

Protein A or G purification

#### Storage

Store at 2 - 8°C. 2 - 8°C for up to 4 weeks and -80°C for long term storage (Avoid repeated freezing and thawing)
