ABclonal[®]

In Vivo Grade Recombinant Anti-HEL VHH-hlgG1 Fc Isotype Control Antibody

Catalog No.: YR0310

Basic Information

Molecular Weight

Endotoxin

<1EU/mg (<0.001EU/ μ g)Determined by LAL gel clotting assay

Sterility 0.2 µm filtration

Aggregation <5% Determined by SECP

Purity >95% Determined by SDS-PAGE

Background

The anti-HEL VHH (hen egg-white lysozyme; nanobody, single-domain antibody, or the variable domain of heavy chain antibody) in nature is suitable for use as an isotype-matched control antibody to estimate the degree of non-specific binding by an antigen-specific antibody. As an ideal recombinant VHH isotype control antibody, the recombinant anti-HEL VHH isotype control antibody has low or no specific binding to any human and mouse sample. The recombinant anti-HEL VHH isotype control antibodies are useful for in vitro and in vivo studies from ELISA, cell-based assay to animal model study.

Reported Applications

an isotypematched negative control use d in ELISA,Western Blot (WB), Flow Cytometry (Flow),Immuno precipitation (IP),Immunohistoc hemistry (Paraffin) (IHC (P)),I mmunohistochemistry (Frozen) (IHC (F)),and in vivo animal model research

Immunogen Information

Clone D3-L11

Isotype Human IgG1 Fc

Immunogen

hen egg-white lysozyme (HEL)

RecommendedIsotype Control(s) In Vivo Grade Recombinant Human IgG1 Fc Protein

Recommended Dilution Buffer

1×PBS

Product Information

Production

Purified from cell culture supernatant in an animal-free facility

Purification Protein A or G purification

Storage

Store at 2 - 8°C. 2 - 8°C for up to 4 weeks and -80°C for long term storage (Avoid repeated freezing and thawing)
